

# What we're doing today

Warmup / For loops

O/b: For loops, Cut, Grab

Rest of week: Talks, Finish Bash section, start python

Next week: ANVIL TERRA Demo

## Warm Up

in bash... "command-like" components

- FOR
- IN `for car IN MIATA HYUNDAI TESLA; do`
- do `echo $car;`
- done `done`

ex. `> echo 'Hello' -D > Hello`  
#1 #2

`for car [in MIATA HYUNDAI TESLA];`  
Variable Name iterator  
`do [echo $car];`  
could change -D

could change

done

could change
